OPEN BURNING PERMIT APPLICATION

Applicant Name: _____

Mailing Address: _____

City, State, Zip: _____

Phone Number: _____

Physical Location of Burn (Address required for Residential Burning):

Address: _____
Street City Zip Code

Parcel: _____ Township: _____ Range: _____ Section: _____

Latitude: _____ Longitude: _____

Type of Burning requested (Check one):

- Residential Construction Agricultural Prescribed Public Officer - Weed Abatement/Fire Hazard
- Dangerous Material* Household Waste* Air Curtain Destructor

*Director's Approval to burn: _____

Number of Burn Days Requested (Residential maximum 3 days in 30 day period, 90 days for other types):

I certify that I have knowledge of the facts herein set forth, that the same are true, accurate, and complete to the best of my knowledge and belief, and agree to the following:

- Burn only vegetative materials, except for oleander, for Residential, Agricultural, and Prescribed burning, in addition to only non-chemically treated and non lead-painted wood for Construction and Air Curtain Destructor burning;
- Conduct burns no earlier than one hour after sunrise and extinguish the fire no later than two hours before sunset;
- Conduct open burning only during conditions that: prevent dispersion of smoke into populated areas; prevent visibility impairment on traveled roads or at airports that result in a safety hazard; do not create a public nuisance or adversely affect public safety; do not cause an adverse impact to visibility in a Class I area; and do not cause uncontrollable spreading of the fire;
- Use one of the following emission reduction techniques: piling; collecting in pit; reducing burn area; consolidating materials; reduce smoldering; pre-drying material;
- Notify the local fire-fighting agency or private fire protection service provider, or the state forester if neither exists, prior to conducting the open burn;
- Start each open outdoor fire using items that do not cause the production of black smoke;
- Attend the fire at all times until it is completely extinguished;
- Provide fire extinguishing equipment on-site during open burning;
- Ensure that the burning pit, burning pile, or approved waste burner be at least 50 feet from any structure;
- Not conduct open burning when an air stagnation advisory, as issued by the National Weather Service, is in effect in the area of the burn or during periods when smoke can be expected to accumulate to the extent that it will significantly impair visibility in Class I areas;
- Not conduct open burning when any stage air pollution episode is declared by the Arizona Department of Environmental Quality or Pima County Department of Environmental Quality;
- Extinguish or discontinue burning during periods of inadequate smoke dispersion, excessive visibility impairment, or extreme fire danger when ordered by the Control Officer or any other public officer;
- Have a copy of the Open Burning Permit on-site during open burning and;
- Provide an Open Burning Report to the Pima County Department of Environmental Quality.
